

*Join the European
entrepreneurial revolution*

04 SEP 2015
BERLIN

Who You Are

You are a game changer. You bring ideas to life that change the way we live. Your product or service is grabbing attention in your country, but you want to conquer Europe.

What is the FIRES Project

The Financial and Institutional Reforms for the Entrepreneurial Society (FIRES) project is a European research consortium, focusing on the central role of 'Entrepreneurship' in the growth strategy of Europe. Funded by the European Commission's Horizon2020 research program, we have studied entrepreneurship in Europe and concluded that entrepreneurial venturing is what brings innovative, inclusive and sustainable economic growth to Europe.

What

Knowledge Exchange

When

04 Sep 2015

Where

Berlin, Germany

Adlershof Science
and Technology Park

Your Role

We need you, because you are a vital part of Europe's entrepreneurial ecosystem, and we want to learn from your pragmatic approach and the challenges you face. At the knowledge exchange, you will network with game changers from all over Europe: investors, strategists, and the minds behind successful and effective international startups. You will get inspired with solutions to the challenges you have in your own country and learn about the entrepreneurial climate elsewhere in Europe. The Fires Project will then advise the European Community in Brussels based on your input.
